

FROM THIS SOURCE HAVE BEEN USED IN INDUSTRY, AGRICULTURE, FORESTRY, HORTICULTURE AND CONSTRUCTION AND ARE APPROVED FOR USE AS DRUGS, MEDICINES AND DIETARY SUPPLEMENTS. TREATED SEED IS MANUFACTURED AT THE RECOMMENDED RATE OF 100 MILLIGRAMS TREATED SEED FOR ONE POUND OF SEED. EXCESS TREATED SEED MAY BE USED FOR ETHANOL PRODUCTION ONLY IF THE TREATED SEED IS NOT USED FOR LIVESTOCK FEED AND IS IN MEASURABLE QUANTITIES OF PESTICIDE REMAIN IN ANIMAL BY-PRODUCTS THAT ARE USED FOR AGRICULTURAL PRACTICE. STORE AWAY FROM FOOD AND DRINKS. DO NOT ALLOW CHILDREN, PETS, OR LIVESTOCK TO HAVE ACCESS TO TREATED SEED. HAZARD COMMUNICATION DATA SHEET.

NO COMMUNICATION DATA
NO SPEED CON-CAUTION

PRODUCT USE STATEMENT: This seed is a blend of 5% refuge seed and 95% seed containing the Herculex® I insect Protection gene that produces a *Bacillus thuringiensis* (Bt) protein and the YIELDGARD® Corn Borer gene that produces a δ-endotoxin Bt protein that provides protection or suppression against susceptible European corn borer, southwestern corn borer, black cutworm, fall armyworm, lesser corn stalk borer, southern corn stalk borer, western corn borer, stalk borer, and corn earworm. Product responses may vary by location, population, environmental conditions, and agricultural practices. These proteins and the active material necessary for their production in corn are registered under EPA Reg. No. 7.

B MUST SIGN A TECHNOLOGY AGREEMENT, READ THE PRODUCT USE GUIDE PRIOR TO PLANTING AND FOLLOW INSECT RESISTANCE MANAGEMENT (IRM) REQUIREMENTS.

ENT STATEMENT: The Herculex I Insect Resistance technology incorporated into these seeds is protected under one or more U.S. patents. The purchase of these seeds includes a license to produce a single corn crop in the United States (or other applicable country). The use of seed from such a crop or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is

purchase of these seeds with the YieldGard® Corn Borer gene includes a limited license to produce a single corn crop in the United States. This license does not extend to the use of such crop or the progeny thereof for propagation or seed multiplication. Furthermore, the use of such seed or the progeny thereof for propagation or seed multiplication or for production or development of a hybrid or different variety of seed is prohibited.

PRODUCT USE STATEMENT: This hybrid contains the Roundup Ready®-Cotton 3 gene developed by Monsanto. The Roundup Ready gene provides resistance to glyphosate, the active ingredient in labeled "Roundup®" brand herbicides. **WARNING:** The Roundup Ready gene will segregate the hybrid ONLY against amounts of glyphosate, the active ingredient in labeled Roundup® brand herbicides, when applied at labeled rates. The Roundup Ready gene WILL NOT segregate this hybrid against specific applications of other herbicides or certain other different products containing glyphosate. Always read and follow all herbicide label directions prior to application.
